

James Hoffa Is Found Guilty of Fraud Conspiracy

CHICAGO, July 27 (AP)—A jury out for three days found Teamsters Union President James R. Hoffa and six others guilty yesterday of a massive scheme to defraud a 280-million-dollar union pension fund. Hoffa, a trustee of the pension fund, was convicted in U. S. district court on four counts of fraud and conspiracy and faces 20 years in prison and an \$13,000 fine. Each codefendant was found guilty of at least one fraud charge and one of conspiracy. The indictment included 20 mail fraud charges and one conspiracy charge. The men specifically were convicted of fraudulently arranging more than 20 million dollars in loans from the pension fund and from the union's insurance fund to their own use.

Jordan Will Help Amend Constitution

WASHINGTON, July 27 (AP)—Sen. Len B. Jordan, R., Ind., today said he is joining in sponsorship of a Senate joint resolution to amend the federal constitution to give states exclusive power over legislative apportionment. Jordan said decisions by the U. S. supreme court that both houses of legislatures must be apportioned on a population basis "mark a long step by the court in rewriting the constitution not only of the United States but of the individual states."

"The court's gradual process of erosion of states rights has apparently come to an end, because, dissatisfied with the slow process, the court has now embarked upon a course of greater and not at all deliberate speed," said Jordan in a statement. He said the resolution will be introduced by Sen. Everett Dirksen, R., Ill., the minority leader. It would provide that membership of at least one house of the legislature must be apportioned as nearly as possible, saying nothing about the other house. For one house legislatures, it would permit apportionment upon such combination of population and area as the citizens of the state shall determine. It would bar interference from any branch of the federal government.

Investigation Continues in Paul Killing

ROCHESTER, N. Y., July 27 (AP)—Police officers were looking into the possibility that the rifle bullet fired through a window at Shelby's market, Burley, some time Saturday night might have been fired by the same person who killed a Mexican laborer in Paul that same evening. Martin Holguin, 33, Paul, was killed Saturday night while sitting in his cabin at the Paul labor camp.

Mindoka county Sheriff Theo Johnson said the bullet passed through the cabin, struck Holguin and lodged in a second cabin. The bullet appeared to have been fired from a large caliber rifle. Officers believed they have the color description of the vehicle from which the bullet was fired, but are still checking for more clues. Funeral services are pending at Walk mortuary, Rupert.

MUNICH, Germany, July 27 (AP)—Two Soviet soldiers fled from East Germany to the West during the week-end, Bavarian border police announced today. The Russians crossed into the West near Neustadt on the Saale river, a police spokesman said.

Concert by Choir Is Canceled

ROCHESTER, N. Y., July 27 (AP)—The scheduled concert of the Salt Lake Tabernacle choir in Rochester, N. Y., was canceled today because of a curfew imposed on the city. Choir President Isaac M. Stewart said members of the choir will attend a dress rehearsal of the Mormon Palmyra pageant instead of giving the concert. A Rochester police official said the town was "peaceful" but the curfew was still in effect. He said police were considering lifting the ban.

Stewart said plans to reach the Rochester concert for Tuesday evening were being studied. The 500-member group flew in Rochester from Kennedy International airport today. They will stay at the Powers hotel in Rochester.

National Guard Called in Fear Of More N. Y. Racial Violence

ROCHESTER, N. Y., July 27 (UPI)—State troopers and local police patrolled the streets of this riot-ravaged city and three battalions of national guardsmen stood by today as city officials debated whether to impose another curfew tonight in fear of more racial violence. The national guard troops were sent in last night to support the state and city police but the city was relatively calm this morning.

The city criminal court began hearing the cases of more than 655 persons arrested during the violence and pillage that flared here for three successive nights beginning last Friday. About 200 persons were arrested Saturday. Negroes went into the streets again last night in defiance of a nighttime curfew and hurled rocks, bottles and improvised fire bombs, mostly in hit-and-hide forays. Helicopters and bayonet-armed national guardsmen were trucked through Negro districts in a show of force last night, but did not go on patrol duty immediately. Their orders were to stand by as a force in reserve to be sent into the streets only if the insurrection got out of control again. Maj. Gen. Collin P. Williams, commanding general of the 27th armored division of the New York guard, said the troops would supplement police activity if the situation warranted.

Three persons were killed yesterday when a civil defense helicopter scouting a Negro district for signs of a new outbreak crashed into a rooming house, turning it into an inferno. The helicopter pilot and two residents of the home were killed. Monroe county civil defense director Robert N. Abbot was burned critically. The fiery crash talked the death-toll to four since apparently long standing anger and frustration among this northern New York community's Negro minority burst into the open. Communism Is Dealt "Body Blow" by OAS

WASHINGTON, July 27 (UPI)—A high U. S. official said today condemnation and punishment of Fidel Castro's Cuban regime by the 20-nation Organization of American States (OAS) delivered a forceful "body blow" to communism in the western hemisphere. "We think economically, politically, psychologically and every other way that this puts the continent on record," said Thomas C. Mann, assistant secretary of state for inter-American affairs.

Mann stressed the psychological importance of the decision by the OAS for foreign ministers yesterday to condemn the Castro regime for aggression against Venezuela and to apply diplomatic and economic sanctions against Cuba. The OAS also warned Castro that future acts of aggression would bring him face-to-face with the combined military strength of Latin America and the United States.

The ministers made their decision by a 16-4 vote and signed the resolution on the 11th anniversary of Castro's 20th of July revolutionary movement. Mann told newsmen the sanctions and the warning would serve as a "body blow" to the world but to the Cuban people. See COMMUNISM, Pg. 2, Col. 6

Greeks Told To Dig Air Shelters

NICOSIA, Cyprus, July 27 (AP)—The interior ministry called on citizens today to dig air raid shelters in protection against the possibility of a Turkish air attack on Cyprus.

The call came after President Archbishop Makarios flew to Athens to consult with the Greek government on what he termed "aggressive measures to impose a solution of the island crisis outside the United Nations." Makarios said on arrival in Athens the Cyprus situation had reached a "critical phase."

The ministry said "air raid shelter digging was not latest in a series of developments following reports during the past several weeks that Greece or Turkey might land troops to quell clashes between Greek and Turkish Cypriots. No details were available immediately beyond the shelter appeal."

Idaho's Reading Law Violates U. S. Constitution

BOISE, July 27 (AP)—A ruling by U. S. district court today declared that Idaho's 40-year-old law requiring daily reading of bible verses in the public schools violates the federal constitution. The decision striking down the law was in line with earlier decisions by the U. S. supreme court holding that states and school districts cannot require bible reading in the schools. Judges M. Oliver Koelsch, San Francisco, and Fred M. Taylor and Ray McNichols, both Boise, did not go into the legal arguments in the case, but simply held in a memorandum decision that the law was invalid in view of the high court decisions. Thelma Moore parents describing themselves as Protestant church-goers, including five ministers and their wives, filed suit asking that the law be thrown out after the supreme court ruling.

Idaho's Legislature Prepares for Meet

BOISE, July 27 (UPI)—Members of Idaho's 37th legislature put aside their re-election campaigns today to prepare for Wednesday's still doubtful special session on water development and other problems. Gov. Robert E. Smylie has called the extraordinary session to consider a constitutional amendment on water resources, appropriation of money for a reapportionment study and four other items. But a legal cloud on the call still hovered over federal court where State Rep. Herman J. McDevitt, D., Bannock, asked for an injunction to block any session except one devoted to reapportionment of the legislature.

A three-judge federal panel heard oral arguments on McDevitt motion Friday and took his request under advisement. A ruling was anticipated today or Tuesday.

If the court allows the lawmakers to meet as planned, legislative leaders hope to complete their business in three or four days and return to their campaigning. A primary election is scheduled just one week from Tuesday.

It was talk during the recent Republican national convention at San Francisco of meeting this Wednesday and then recessing until after the primary, said the speakers called without pay. However, Senate President Pro Tem Jack Murphy, R., Lincoln, indicated last week he knew of no such plans.

Idaho's water development and appropriation of money for a reapportionment study, Smylie also called the session to.

Designate a portion of the Patagonia wildlife preserve as a state park and appropriate money to ready it for next year's Girl Scout roundup.

Amend the so-called port district law.

Authorize use of monies appropriated in 1963 to prepare the legislative chambers for the 1965 regular session.

And appropriate money to pay expenses of the special session.

McDevitt, a Pocatello lawyer in private life, brought the reapportionment suit in federal court in 1962 in the names of citizens in Pocatello and Boise. He asked for a court order to reapportion both houses of the legislature on a population basis. Although the house presently is apportioned on the basis of population and appropriate money to ready it for next year's Girl Scout roundup.

The attorney-legislator lost his suit last January when a three-judge panel dismissed it without a decision. He appealed to the U. S. supreme court and the court agreed to hear the case. The court after holding down decisions in other cases that required reapportionment of both houses of state legislatures on a population basis.

McDevitt then sought to block both the forthcoming special and regular sessions of the legislature as well as state elections until both houses are reapportioned in a manner consistent with the supreme court ruling.

Fire Controlled

GLENN'S FERRY, July 27 (AP)—A 40-acre range fire about 15 miles south of Glenna Perry was controlled by bureau of land management firefighters last night after a nine hour battle. The 25 men on the fire were backed by a water tanker, a bulldozer and a helicopter. The fire dispatcher in Boise said the blaze was in the Grindstone Butte area.

U.S. Promises to Send More Soldiers And Equipment Into South Viet Nam

SAIGON, South Viet Nam, July 27 (AP)—The United States has promised to send more U. S. soldiers and additional civilian advisers to South Viet Nam and to furnish more equipment for the war against the communist guerrillas, the Vietnamese government announced tonight.

The announcement by Premier Mai Gen. Nguyen Khanh said the undisclosed number of fresh American troops would be used as additional advisers in battle. The U. S. will reinforce the approximately 15,500 American servicemen already serving as advisers with Vietnamese fighting forces in this war-torn Southeast Asian nation.

Khanh said additional civilian advisers also had been promised by the United States. The South Vietnamese premier said there would also be an increase in U. S. military equipment, including transport planes, plus more technicians for maintenance and communications work.

The U. S. minister's announcement was issued this morning after a conference with U. S. Ambassador Maxwell D. Taylor, former chairman of the

Johnson Goes All Out for President

WASHINGTON, July 27 (AP)—President Johnson today welcomed Sen. Johnson to the White House, Madras, in a colorful White House ceremony complete with 21-gun salute and a trim military honor guard which waited a bit under the hot sun.

While Johnson was speaking in response to Johnson's warm welcome remarks, a marine corps member of the color guard standing near the speakers rostrum collapsed in the heat.

The President quickly motioned for a secret service agent and the White House doctor, Rear Adm. George Burkley, to go to the fallen Marine's assistance. Before the agent or the doctor could reach the young man, his colleague had hauled him out of sight.

Dinner to Be Held Before Special Meet

BOISE, July 27 (AP)—Gov. Robert E. Smylie said today he planned to hold a dinner meeting with the legislative leadership here Tuesday night.

The dinner comes on the eve of Smylie's planned special session of the legislature to consider appropriations for the Girl Scout encampment, remodeling of the statehouse and to study the reapportionment case.

The session also will act on his proposed water amendment and a rewording of the Port District law which goes before the voters in November as a constitutional amendment.

Smylie returned to the statehouse Monday from a week-end trip to California. He said while there he talked briefly with California Gov. Edmund G. Brown on the telephone.

Smylie presumably talked with Brown about past southern California plans to tap the San Diego river for the arid Southwest.

Goldwater, Top Aids Discuss Group's Plans

WASHINGTON, July 27 (AP)—Sen. Barry Goldwater huddled today with his top campaign aides to discuss organizational plans.

Among those scheduled to meet with the Republican presidential nominee are GOP national chairman Dean Rusk and campaign director Benson Kitchell.

The Arizona senator leaves Thursday for a vacation in California. He plans to return to Washington about Aug. 6 and is expected to formally launch his presidential campaign in Prescott, Ariz., during the third week in August.

Soviet Union Threatens to Withdraw

MOSCOW, July 27 (AP)—The Soviet Union today threatened to withdraw as co-chairman of the international agreement on Laos unless a new 12-nation conference on the Laotian crisis is summoned.

The Soviet stand emphasized the importance of the talks on Laos. British foreign secretary R. A. Butler, who is arriving today, will hold talks with Premier Nikita Khrushchev. Khrushchev is the other co-chairman of the Laos agreement.

Yesterday, the Soviets issued a call for a new meeting of the Geneva conference on Laos. They said the 14 Geneva signatories must settle the fighting between communist and pro-Western forces in the Southeast Asian country. The United States and Britain oppose such a meeting at this time.

In London official sources said the United States and Britain would oppose such a meeting at this time. British diplomats said Laos would be one of Butler's main topics during his five-day visit.

Scolded

EPHRAATA, Wash., July 27 (AP)—Grant county Sheriff Ralph Hall sent two of his deputies on an assignment they assumed he wanted service in a hurry.

So they took off—at speeds in excess of 100 miles an hour.

Unfortunately Deputy Sheriff Jerry McLean and Juvenile Probation Officer Don White were using unmarked cars, with no out-of-state license plates and no sirens.

Boise Lake police officers, observing the car going through several stop signs, pursued it. Then they radioed the sheriff's office for assistance. They said the car reached speeds of 110 miles an hour.

Theft Is Investigated By Police

EMOKIE, Ill., July 27 (AP)—Police in this Chicago suburb today investigated the bizarre theft of a body of a 14-year-old girl from a funeral home.

The body of Theresa Koerigen was found in an alley in nearby Evanston Sunday, some 10 hours after a funeral Mass was said for the dead girl.

Chicago police also recovered a yellow party dress believed to be the same one the girl was dressed in while lying in repose. The dress was found on the north side of the city.

Aurorians said they planned to request friends and relatives of the dead girl in an effort to uncover new leads.

Two suspects arrested in the case, one a 16-year-old boy whom the police said had "pestered" the girl for a date, and a man who had been seen loitering in the vicinity of the funeral home, have been released, police said.

Rock Slide Kills Two Teen-Agers

LONGMIRE, Wash., July 27 (AP)—A rock slide described by a survivor as "a cloud of rocks" killed two teen-age girls, one of them a bride of two months, on 31. Reiner Sunday.

Three youngsters were injured. They were in a party of 10 on a mile hike from the Nisqually river bridge eight miles above Longmire to the snow of Nisqually glacier.

The dead were Miss Starr, 14, Los Angeles, and Miss Janet Lettola, 18, Kent, Wash.

Miss Lettola was spending the summer here with her stepfather, Joe Levine, a Los Angeles school teacher and a national naturalist at Mt. Ranier national park.

Mrs. Lettola died of injuries shortly before an air force helicopter arrived to rescue her. Her husband, Thomas, escaped injury.

Airplane Makes Emergency Stop On Lake Bed

RAWLINS, Wyo., July 27 (AP)—A twin-engine plane made an emergency landing Sunday on a dry lake bed near here while on a flight from Casper, Wyo., to Salt Lake City.

The plane, piloted by H. A. Sundeen, Santa Cruz, Calif., and carrying one passenger, had been reported missing when it failed to arrive at Salt Lake City.

However, the pilot reported to Rawlins airport about three hours later that he had landed about 20 miles northwest of here on a dry lake bed.

Election Year Termed Slowest on Record

BOISE, July 27 (AP)—Idaho's 1964 election year is three months old. And as the saying goes, "It's later than you think."

To the disappointment of the four candidates in the field, this year's race is without a doubt the slowest on record.

This is not because of the candidates themselves, but of negligible interest from the voters, despite Idaho's record of having the highest average of eligible voters who go to the polls in the nation.

The primary election is a week from Tuesday. Members of the state's Board of Canvassers, Idaho's elected officials, have all agreed that the turnout Aug. 4 will resemble more of a straw vote than the well-known, hotly-contested elections of days past.

The candidates in the second district against incumbent Ralph Harding are Rexburg rancher Dick Smith, still a member of the state senate; former Assistant Atty. Gen. Keith Schofield, Boise, and one-time U.S. Senatorial candidate George V. Hansen, Pocatello.

In the first district against incumbent Compton I. White, Jr., is Kellogg realtor John Matmiller.

Harding and White are Democrats. This will be Harding's third year if elected, and White's second. Smith, Schofield, Hansen and Matmiller are Republicans.

Policeman Is Shot in N.Y.

NEW YORK, July 27 (AP)—A policeman was shot to death today when he attempted to corner a suspected burglar who had robbed and attacked two women in their lower East Side Manhattan apartment.

The suspect, tentatively identified as Frank Fusco, 30, was arrested after a brief gunbattle with other police. Police said he had a minor wound of the head.

The victim was Patrolman Henry Wallburger, 24, who along with his partner, Patrolman Thaddeus Malyz, cornered the suspect at the rear window of the second floor apartment.

The women were identified as Barbara Pierre Franklin, 33, and her mother, Mrs. Genevieve Pierre, about 60.

er Smith, Schofield or Hansen will represent the Republicans against known campaign battle Harding.

Smith will be getting a forum over his opposition because of the start Wednesday of Gov. Robert E. Smylie's special session. But whether it is true or not, Smith has worried privately that he may be better off on the market parking lot shaking hands than twisted up in legislative politicking.

There have been several good reasons why the focus on the candidates has been short this year. One would be the Republican nominating convention, and another that most of the state's hottest campaign issues, such as redistricting, reapportionment or waste, are bound in either court cases or the pending special session.

But the chief reason is the remodeling of the Idaho nominating system.

Castro Hits Back at OAS

SANTIAGO, Cuba, July 27 (AP)—Premier Fidel Castro, reacting angrily to Organization of American States (OAS) sanctions against Cuba, said last night he would provide "all available resources to pro-communist revolutionaries throughout the hemisphere."

Castro, addressing a crowd estimated at around 500,000 on the 11th anniversary of the start of his revolutionary movement here, also threatened to "shoot back" at U. S. marines at the Guantanamo naval base if they fire on Cuban sentries.

Cheers and shouts "bounced from the crowd, which had waited in a sun-baked open field most of the day to hear the bearded premier."

Thousands upon thousands of peasants and industrial workers had been brought to this eastern Cuba city by government truck and bus. Thousands of others streamed down from the Sierra Maestra, the mountains where Castro won his guerrilla war for control of Cuba.

Auto Accident Kills Woman

FLORENCE, Okla., July 27 (AP)—An automobile crashed off U. S. 101 and killed Mrs. Laura Servich, 67, Seattle, about 13 miles north of Florence yesterday.

Police said her husband, Ricardo, 62, was driving. They cited him on a charge of drunkenness.

He was brought to a Florence hospital for treatment of two broken ribs and cuts.

The car left the road at a curve near the Heceta Head lighthouse, went down a 12-foot embankment and hit a tree.

Barred

SALT LAKE CITY, July 27 (AP)—A Salt Lake City physician was barred from practice over the week-end by the State of Utah.

The state department of business regulation revoked the physician and surgeon license of Dr. Kurt L. Jenkins on the recommendation of the state physicians and surgeons committee.

C. R. Openshaw, Jr., department executive secretary, said the license was revoked on the grounds of the committee's ruling that Dr. Jenkins had procured narcotics or habit-forming drugs for persons with the knowledge that they would be used for other than medical purposes.

Shook Up

WEBSTER, HORNDON, Tenn., July 27 (AP)—David Dunn, 56, who went out for a drink over the week-end, was found lying asleep on a railway track early yesterday—only minutes after a train passed over him.

Dunn, who was shaken but unhurt, said, "next time I'll pick a safer and more comfortable spot to sleep it off."

Send Me Men To Match My Mountains

I first came to be somewhere back in the limitless reaches of time, when this bleak, rock strewn planet was yet a mass of dismal lava and brimstone. Call me Nature, if you will. I began by clawing at the wretched results of a planet torn by fire. I called down the wind, the rain, the sleet, cold and heat. And, through eons of torturous struggle found soil—a bit at a time. I planted trees and grasses. In their turn they died to provide rich humus... more vegetation... life. After countless centuries shades of green struggled up the hills and tumbled over into the valleys. I wept the tears that fed thirsty roots and laughed soft zephyrs that carried seeds to new plantings. A carpet of green-rippling streams—majestic mountains reached to touch blue skies—hills next to heaven. It needed only man. So I cried out, "Send me men to match my mountains!" They came. And, with them, a few running... with matches... to match my mountains.

Beagles Learn Tricks From Master About Campaigning

WASHINGTON, July 27.—Mrs. Johnson's beagles, Him and Her, apparently can learn a few tricks from their master when it comes to campaigning on the White House lawn.

The dogs were on hand yesterday when the President and Mrs. Johnson invited a crowd of some 200 tourists through the gates for a "walk around the block with us." The Johnsons were genial hosts, but the beagles became unfriendly when they spotted a Scottish terrier named Mister Smith in the crowd.

Him and Her barked and tugged at the long chain leashes on which they were held by Johnson when they spotted the strange dog, held in the arms of his master, John Cochran, Indiana, Pa.

"They must think he's a Republican," Cochran said laughingly as the President held back his pets.

Johnson was amused by the episode, and a short time later he steered Him and Her back toward the black Scottie to see what would happen.

This time Mister Smith growled.

Small Fire Extinguished At N.Y. Fair

NEW YORK, July 27 (AP)—A small fire, quickly extinguished, caused evacuation of from 2,500 to 3,000 persons yesterday from the Ford Pavilion at the World's Fair.

The pavilion was closed for three hours while workmen mopped up water from automatic sprinklers set off by the blaze. One of two rides which takes (visitors) from exhibits was kept closed for the day, because of fear that water-soaked plaster might fall.

The fairgoers in the building were evacuated for about four minutes, before the automatic sprinklers went on.

Boise Family Unhurt in Plane Crash

BOISE, July 27 (AP)—Three members of a Boise family escaped serious injury when their airplane plunged into the Middle fork of the Salmon river over the weekend.

Pilot of the plane was Marvin L. Nelson, 52. He was taking off at the airport strip near the mouth of Big Lost creek in Stanley basin with his two sons, Dave, 17, and Merrill, 21. The landing strip is in a primitive area about 150 miles northwest of Boise.

Dave reported that his father was trying to get up flying speed when the plane topped a tree and fell into the river near the far bank.

Though injured himself, the youngster managed to get his father and older brother from the plane and to shore.

He then walked upstream about one and one-half miles and saw his father's car. He walked another mile to a ranger station where he reported the accident.

A Dr. Clark from Idaho Falls, who has a ranch near the accident scene, was summoned. He and a forest ranger went to the aid of the other two men and spent the night with them.

Dave was returned to Boise by airplane where he was treated at St. Alphonsus hospital and released.

The other two men were rescued this morning. They were taken downstream in a rubber raft where a helicopter retrieved them to Boise for examination and treatment.

The son, Dave, after his experience reported that he was only "stiff and sore."

T.F. Officers Probe Two Accidents

Twin Falls sheriff's officers investigated two accidents over the weekend.

Mrs. Grace Shriver, 58, route 4, Buick, told officers she drove a 1960 Buick from a driveway about 9:30 a.m. Saturday one-half of a mile east of Buick and struck a 1960 Dodge driven by Mrs. Mary Wright, 35, route 4, Buick.

Gwenita Rasmussen, 710 Second avenue east, told officers that she parked her 1955 Chevrolet on an incline at 50 p.m. Sunday at a party at her home about one mile north of Rock Creek ranger station.

She said her vehicle rolled down the incline approximately 50 feet from the top of a ravine and traveled approximately 35 feet before coming to rest against a tree.

She was not in the vehicle at the time of the accident. Damage was estimated at \$300 to the Chevrolet.

Men Selected For 4-Day Orbit Flight

HOUSTON, July 27 (AP)—The federal space agency today named "second generation" astronauts James A. McDivitt and Edward H. White II to make a four-day flight into orbit around the earth in early 1965.

The voyage far away the longest ever attempted by the United States, will follow the inaugural flight of three orbiters by astronauts Virgil I. (Gus) Grissom and John W. Young.

That trip is not for late this year or early 1965. The nonflight of McDivitt and White, two of the nine astronauts added to the program in September, 1963, came as a surprise.

Originally, space officials had indicated they would name one of the original seven Mercury astronauts and one of the newer group to the earlier Gemini missions.

Chief Gemini is this nation's first attempt to put two astronauts into space aboard one capsule. In earlier Project Mercury, six-U.S. astronauts went into space at a time.

News Around Idaho

POCATELLO, July 27 (AP)—The job picture in southeastern Idaho brightened last week. The Pocatello office of the employment security agency said that the number of unemployment claims decreased last week, and the number of jobs available rose slightly.

BOISE, July 27 (AP)—The Idaho Statesman began its second century of newspaper publication yesterday. Acting Gov. William B. Drewell cut a giant Idaho-shaped birthday cake to mark the event. "This is an important day not only for the state of Idaho but for surrounding states as well," said Drewell in the presence of a gathering of state county and municipal officials, community leaders and employees of the newspaper. Following the ceremonial cake-cutting, the Statesman began two days of open house.

HALE, July 27 (AP)—The parents and brother and sister of an Ogden boy killed in a head-on collision Saturday, 23 miles south of Pocatello, were reported in satisfactory condition yesterday. State police said David Christensen, 17, drowned when the force of the collision knocked the family's car down a 30-foot embankment and into the Salmon river. The boy was pulled from the vehicle one-quarter mile downstream.

NEW PLYMOUTH, July 27 (AP)—Charles Lee Sparks, 16, New Plymouth, died on his way to his home last night from injuries received in a motorcycle accident. Idaho state police said a motorcycle was driving crashed into a parked car on a county road about two miles northeast of New Plymouth. He was alone on the motorcycle, officers said.

LEWISTON, July 27 (AP)—Nex force county sheriff's officers have located a body that, they said, bore a wrist watch belonging to James B. Beedfield, 62, purchasing agent for Potlatch Forests. Beedfield disappeared when a car similar to his plunged over a cliff and into the Clearwater river. The car, however, was not recovered. The car was recovered from the river yesterday. Officers said that divers had found the body in the river not recovered.

BOISE, July 27 (AP)—The Idaho state police have ruled that the death of 10-year-old L. Michael Beedfield, who was counted in the state traffic toll. The girl was killed Friday night when she fell from a pickup truck on U.S. highway 30 south of Boise. Officers said the girl and a companion were walking toward home when they were given a ride in the truck. The state police, however, are continuing an investigation of the accident.

POCATELLO, July 27 (AP)—It can't do anything about the weather, so the U. S. weather bureau at Pocatello is doing the next best thing. It is installing equipment to aid pilots of small aircraft who may be seriously affected by adverse weather conditions. The bureau is installing a weather station at Pocatello. The station will provide a majority of air accidents. "Bad weather almost always creates landing problems," he said, "especially for small craft." The new equipment that Clerber is installing is expected to supply precise information to pilots as they attempt to land. Included are two towers, a photoelectric cell unit and a rotating beam collimator.

YOUR BIRTHDAY and HOROSCOPE

MONDAY, July 27—Born today, you are subject to extremes of emotion which at times may keep both you and your friends hopping. You react with unusual spontaneity to even the most mundane circumstances and, although such an intense response means you will never become bored, it could also mean that you will not enjoy a more settled, securely oriented life.

It should go without saying that you are bound to have sudden eruptions of "mood," eruptions that make others call you unpredictable. For this reason, you may find that you seldom run for a position of leadership—though as a group member you are always a welcome, interesting and diverting addition.

Given to wearing your heart on your sleeve, you never hesitate to show your affections. The one you love will always know it, right in the palm of his or her hand. Much can be forgiven the person who shows his true feelings, who demonstrates by word and deed that, despite occasional transgressions, he is happy with his mate.

Among those born on this date are: Keenan Wynn, actor; Leo Durocher, noted baseball manager; Hilare Belloc, author, historian.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

LEO (July 24-Aug. 23)—Covetous action is the best way to make enemies today. Let your neighbor have his way; some lions aren't worth a fight.

VIRGO (Aug. 24-Sept. 23)—Not the day to take risks with your reputation. Keep your good name in first-rate condition by changing the Chrysler.

TAURUS (April 21-May 21)—Take a tip from Teddy Roosevelt: speak softly—but carry a stick. You may have to take forceful action, but try talking instead.

SCORPIO (Oct. 24-Nov. 23)—Avoid experimenting. Stick to known methods of operation in whatever you do and success should be yours.

SAGITTARIUS (Nov. 23-Dec. 22)—If possible, steer clear of a gamble. However, you might have no choice but to walk out on a hit.

CAPRICORN (Dec. 23-Jan. 20)—Have your gregarious impulses for other days. Now is the time to work out answers alone.

AQUARIUS (Jan. 21-Feb. 19)—Make a suggestion for an order! If things don't work out as you'd hoped, your own decision is to blame!

PISCES (Feb. 20-March 20)—Treat your senses of taste and taste thoroughly before you give your enthusiasm the nod to go ahead.

ARIES (March 21-April 20)—Take the practical approach to present problems. Seek first the source and afterwards the solution.

TAURUS (April 21-May 21)—The plans you make today may be workable. However, there is a high probability of error; check twice!

GEMINI (May 22-June 21)—A day for creative activities, especially if the other participants are members of your own family.

CANCER (June 22-July 23)—Slay your moves in advance. Today could result in a great jump forward—if you're careful!

Celebration Held in N.Y. By LDS Choir

NEW YORK, July 27 (AP)—The touring Mormon Tabernacle Choir celebrated its 25th anniversary of radio broadcasting Sunday with a program originating at the New York World's Fair.

In special pre-broadcast ceremony, Arthur H. Hayes, president of CBS radio, presented the 376-voice choir with two gold records honoring its recordings of "Meditation" and "Hallelujah."

Hayes told the audience that only five gold records have been awarded for sacred music, and that the Mormon choir already has received one for its version of "The Hallelujah of the Republic."

The choir is presently on tour, and will present concerts in the United States, New York, Cleveland, Milwaukee and Minneapolis before returning home to Salt Lake City.

The choir triumphed Saturday night at Carnegie hall in its famed rendition of the "Hallelujah of the Republic."

The number brought the audience to a standing applause.

High Tension Wire Kills Balloonist

PITTSBURGH, Calif., July 27 (AP)—A champion balloonist was killed yesterday when his gondola drifted into high-tension wires and exploded in a white flash of fire.

Richard Pollard, 19, Denver, was competing in a four-balloon benefit race to raise funds for a recreation center for the handicapped at nearby Chuyon. He was the national hot air balloon champion.

The race had been scheduled originally for last Saturday in San Francisco's Golden Gate park, but it was canceled by Police Chief Thomas Cahill as "too hazardous."

Pollard, who had difficulty with his balloon when the race started at Clayton, a less populous area. A crowd of more than 3,000 watched as he left 10 minutes behind the others because of last-minute repairs.

He was seen, a photographer for the Oakland Tribune, watched from a small airplane as Pollard's balloon headed toward the 100,000-volt wires.

"He missed one, then another," said Reed. "But he hit a third. Then this huge white flash went up."

The pilot's body dropped straight down about 60 feet and lay motionless.

"We saw a motorcycle cop drive up, take one look at the body and drive away," Reed said.

Oldahoma Cowboy Is Champion

CHEYENNE, Wyo., July 27 (AP)—Jim Shoulders, Henryetta, Okla., one of professional rodeo's all-time greats, won his second consecutive Oldahoma cowboy championship of the Cheyenne frontier days rodeo yesterday.

However, Shoulders was not the top money winner. Specialist Tater Decker, Clayton, Okla., after weathering with \$2,023.50, the B. J. Pierce, Clovis, N.M., calf roping, with \$2,017.00, led in the cash department.

Do Not Disturb

BITBURG, Germany, July 27 (AP)—Farmers in the Bitburg area generally are a good natured, friendly, easy-going lot. But don't disturb their sleep—especially with a noisy sports car.

Police said Sunday that residents of the nearby village of Blesdorf put up with a road race that went all through the main street all day Saturday. They put up with the danger from speeding cars, the noise and exhaust fumes. But when the race was going on at 2 a.m., they took action.

The village's main street was barricaded with heavy oak logs. As each car halted at the barrier, the engine was removed. After about a dozen cars were put out of action, the citizens of Blesdorf went back to bed.

West German Magazine, Senator Talk

BONN, Germany, July 27 (AP)—A leading West German magazine says Ben Barry Goldwater told one of its correspondents: "The only person who is respected is the one who clearly says what he means. That is determined to go to extremes."

"That is a policy that your country and all successful countries have followed throughout the past thousand years," the magazine's editorial candidate is quoted as telling Werner Holzer, a correspondent for the weekly magazine Revue.

In a statement issued in Washington, Goldwater said he had given an interview to the German newsmen. "He only asked me a few questions," Holzer said. "But he was very direct and told him he had been trying to get an appointment for an interview. He said the senator suggested they talk then and there."

Thant told newsmen it is too early for him to make a decision on whether to seek another four-year term.

He had been quoted yesterday as having said he expects his continued support of the world powers until his term expires, but has no intention of serving beyond that time.

Thant, visiting his native Burma for the first time since he was named to the U.N. post in 1962, planned to leave tonight for a three-day visit to Moscow.

Georgia KKK Agrees to Go Goldwater

ATLANTA, July 27 (AP)—The Grand Dragon of the Georgia Ku Klux Klan says his followers have decided to back Republican presidential candidate Barry Goldwater in a campaign against "Americanism" versus "socialism."

Grand Dragon Calvin Craig said "I think the people will have an opportunity in November to vote on a right they should have had 10 years ago," he explained, "whether they accept states rights and constitutional government or a continued path toward socialism."

The Klan chief said the decision to back Goldwater for president was made recently at a meeting of the Klan's state officers.

Policies of Udall Hit By Hansen

BOISE, July 27 (AP)—The policies of Stewart Udall, secretary of agriculture, were attacked yesterday morning by George Hansen, Republican congressional candidate in the second district.

Hansen charged that Udall has neglected and threatened the basic interests of Idaho and the west.

Idaho's economy is very dependent upon proper utilization and development of its public lands and natural resources, said Hansen.

"Mr. Udall has continually favored such bureaucratic weapons as lock-up and freeze-out. He has exercised exceedingly high-handed authority in grazing and mineral rights."

"His authorization by directive order of Bonneville Power into Idaho which can seriously effect millions of people and millions of dollars in lost power for any cabinet member to exercise."

"On the other hand he has vacillated on Idaho's water rights in the struggle with California and has been a prime mover of wilderness measure designed to make Idaho into a national playground for the wealthy and restrict our growth and development."

"Our present congressman is such a Udall yes-man, that we are handicapped in our struggle for state financial and political sovereignty."

"I want the opportunity as the next congressman from Idaho to add voice and fight to these issues for Idaho's best interests."

VII. The Armies March

Written for Newspaper Enterprise Association By PHILIP VAN DOREN, STERN

Illustrated By John Lane

Disaster had struck the world at Sarajevo on June 28, 1914, when Austria's Archduke Franz Ferdinand and his wife were killed there by a Serbian assassin. But the world paid little attention, because it thought that this was only another outburst of local Balkan violence. Yet Austria and Germany were directly concerned. A week after the assassination, Germany promised to back Austria on any move she might make against Serbia. With that promise the war was launched; what happened during the next few weeks was merely the transformation of political dissension into open conflict.

On July 23 Austria delivered a 48-hour ultimatum to Serbia with an impossible array of demands. Serbia meekly agreed to nearly all of them, but that was not enough. Austria declared war on her on the 28th and bombarded Belgrade the next day. Those shots were the first of millions that were to split the skies

for more than four years. Within a week all Europe was to be at war.

Civilians hurriedly put on uniforms, and anxious-faced women watched tearfully while their beloved ones marched away. Hardly any of the first soldiers to go into combat were to survive four years of battle. They were corpses marching obediently to their graves, skeletons in uniforms that would be ground into the shell-churned earth.

When Russia mobilized, Germany issued a 12-hour ultimatum demanding that she recall her troops. But there is no way of stopping a tidal wave when it starts to build up strength. All over Europe armies were getting ready to fight. The only question was where they would meet and what paths of attack they would take.

The German Schlieffen plan called for an invasion of Luxembourg and Belgium so the

Kaiser's army could sweep west of Paris and come around to surround the city on three sides. Meanwhile, other German forces were to attack Russia in a two-front war. Trains rolled both east and west with men and guns.

By August 2, tiny Luxembourg was overrun. Belgium's turn was next. Now England was involved, for she had guaranteed that small country's neutrality. When Germany demanded free passage to France, Belgium rejected the ultimatum, and the Kaiser's troops entered with guns blazing. England, although torn by international disagreement, stood by her guarantee.

After speaking in the House of Commons on August 3, Viscount Grey of Fallodon, Secretary of the Foreign Office, stood looking at London as dusk fell that night. "The lamps are going out all over Europe," he said. "We shall not see them lit again in our lifetime."

Different Breed of Men Reported Taking Part in New York's Violence

(Editor's note—The nation has often seen disciplined, well-behaved Negroes in the streets of New York City. But the riots in New York and Rochester have brought a different breed to the front. Young men who head-butt, follow in hordes, and seem to have no conscience. Here is a glimpse of the hard core.)

ROCHESTER, N.Y., July 27 (AP)—An exhausted fireman felled by heavy smoke was wheeled from a flaming house in Rochester's riot-wrecked Negro section.

"He should have got burned up long ago," a Negro boy said.

Here in the brilliant sunshine of a Sunday afternoon the boy and hundreds of other Negroes had watched a gruesome drama. A helicopter being used to spot potential riot activity had hit the peaked gable of the frame house, fallen to the sidewalk, exploded and burned. Two persons in the house, presumably Negroes, burned to death.

For some in the crowd, the spectacle was sickening and sobering. They were mainly older people, mechanics, and electricians. But the young fellows, the lean and well-muscled teenagers and men in their early 20s, shed no tears.

"Their attitude throughout rioting that began Friday night has been one of militant recklessness. There is a bravado to them—and the chill quality of boys who have begun to believe that life is a one way road to death and they are on it, put there by white men."

The role of young Negroes in Rochester parallels that of those who met police in hand-to-hand battles in Harlem and in Brooklyn's Bedford-Stuyvesant section.

"There's a don't care attitude about these boys," said Ernest Denny, a Negro social worker. "They're saying to the white society, 'You're going to kill me psychologically if I live, so why not kill me with bullets?'"

"The thing is that they are not afraid. These are brave boys." "They have lost respect for authority," said Lieut. Andrew Sparacino, head of the Rochester police department's youth division.

Boys and young men from the major Negro areas in town voiced bitter resentment of whites, especially of the police, and talked with a belligerent straightforwardness.

"Man, there ain't no cat going to frighten me," said a youth of 19. "They kicked that out of me when they kicked hell out of me one time when they busted a crap game. They grabbed the dough and then used the clubs." A boy of 14 who wore a wrist wound proudly, said: "We are just different. My mama and pa, if it was up to them, would 4 lock me in the house last night. They scared. But they old and old people get scared. I went out and I stayed out. I didn't make it back home to maybe 4

Clean Up Is Under Way After Fire

SAN BERNARDINO, Calif., July 27 (AP)—Firefighters were conducting mop-up operations today in the Cajon Pass area of the San Bernardino national forest, where a six-day fire blackened more than 17,000 acres of valuable watershed and timber.

Three dwellings, 10 small out-buildings and utility and railroad lines were destroyed or damaged severely by the fire, apparently caused by a careless discarded cigarette.

One major injury was reported. Russell Wright of the Cajon Pass county, received second and third-degree burns over 30 per cent of his body, but was described in good condition in St. Bernardino hospital here.

At the height of the fire, which was controlled yesterday morning, more than 1,200 firefighters and an armada of equipment were on the fire lines.

Several small communities were threatened by the blaze at times, firefighters reported.

Johnson, U Thant Will Confer

WASHINGTON, July 27 (AP)—U Thant, secretary general of the United Nations, will confer here with President Johnson and high U.S. officials on Aug. 6, the White House announced today.

A whole range of international issues stretching to all corners of the globe could come up for discussion. But the White House was silent on specific items.

It only announced that U Thant had accepted a presidential invitation for a one-day visit to the capital, that he would spend the night at the official government residence, Blair House, and return to his New York headquarters the morning of Aug. 7.

Wrong Glass

BALT LAKE CITY, July 27 (AP)—A Balt Lake City woman who drank a glass of weed killer she apparently mistook for a soft-drink died early Sunday in a Balt Lake City hospital.

Paul E. Turner said he prepared a salt-water antidote listed on the weed killer bottle for his wife, Therese, 47, but it did not induce vomiting.

Three hours later, Turner said, he took his wife to a hospital, where she died a short time later.

Police said the weed-killer was more than 40 per cent arsenic trioxide.

Man Jumps From Golden Gate Bridge

SAN FRANCISCO, July 27 (AP)—Police were only minutes behind when Richard H. Gillespie, Jr., braked his car near the north tower of the Golden Gate bridge yesterday and leaped 200 feet to his death on the jagged rocks below.

Mrs. Gillespie discovered the note a few minutes after her son left the house, she alerted police. The highway patrol was looking for Gillespie when he jumped.

Small Boy's Body Found By Fisherman

LONG BEACH, July 27 (AP)—An extensive air, ground and sea search for a 4-year-old Ricky Grans apparently ended yesterday when a sports fisherman spotted the boy's body in the water near the North Head lighthouse.

The fisherman, Lloyd Hamilton, Kelso, Wash., lifted the body onto the rocks so it would not be carried to sea again. Then he called to Mr. and Mrs. David Page, Seattle, who were driving on the beach.

Mr. and Mrs. Page notified the coast guard's capot disappoinment lifboat station and coast guardsmen brought the body ashore.

Ricky disappeared on a clam-digging outing with other Portland YMCA boys July 13. More than 200 soldiers assisted law enforcement officials, civil defense workers and others in the hunt for him.

Sheriff Herman Felber said the boy apparently drowned. An autopsy was ordered.

Send me a new trumpet
Address: Anchorage, Alaska

Robert Atwood, Alaska newspaperman and amateur musician, had just put his trumpet to his lips when the earthquake hit. Running outside, he found himself on the ground, arm and trumpet buried shoulder-deep in rubble. To extricate his arm, he had to surrender the trumpet.

One trumpet: a small loss. Perhaps. The earthquake damage was confined, fortunately, to limited areas. Alaskans are fighting back. Engineering tests are being made to locate safe sites for rebuilding. Materials and equipment are pouring in. Despite a short building season, Alaskans plan to have rebuilding well along by Christmas. Ambitious—but very Alaskan!

Alaskans are going about their jobs. In damaged areas, merchants are supplying their customers.

Schools, hotels and public services are functioning. Alaska's splendid visitor attractions and accommodations are open and inviting.

Standard, too, lost heavily, but our service did not stop. Within hours of the earthquake, our products were supplying heat and energy to distressed communities. Today, even as we rebuild, they supply energy for Alaska's reconstruction. We've served Alaska almost 80 years. We intend to go forward.

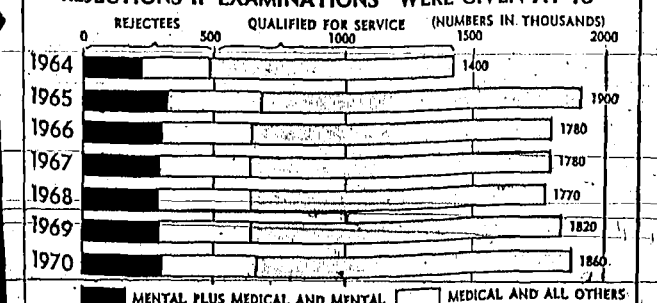

Bob Atwood's impatience to have a new trumpet is symbolic of all Alaskans' determination to recover life's amenities. They came north-by-west to build that life in their Big Land. They mean to get on with it.

Their courage and optimism make all-Americans walk ten feet tall.

Venturi Captures First Money in ICO Open Golf

HARTFORD, Conn., July 27 (AP)—U.S. open champion Ken Venturi's game fell apart on the last two holes but he withstood challenges from Al Bessellink and Sam Carmichael to capture the Insurance City open golf tournament Sunday. He shot a 71 for a 72-hole 11-under-par total of 273, and pocketed \$7,500.

Bessellink and Carmichael finished in a four-way tie for second place with Paul Bonzon and amateur Jimmy Grant, all with 274.

"This is the first time since I've been a pro that I've ever backed into a win," said the 35-year-old Venturi.

Going into the last two holes Venturi was three-under-par for the day and two strokes ahead of Bessellink who was playing in the threesome behind him.

Bessellink had trouble, too. His second shot went over the green into the scorer's tent. He was allowed to move the ball without penalty and then pitched a 40-foot putt for a possible victory. But the ball rolled to the apron, and he needed two more shots to hole out.

Until the wild finish, Venturi appeared to be walking away with the top prize.

Carmichael, playing in the threesome with Bessellink, approached the final hole one stroke behind him and three behind Venturi. He missed a 10-foot putt which would have given him a first-place tie and finished with a par 71.

Almost unnoticed at the same time Bonzon, who started the round seven strokes off the pace, was firing a 65 for one of the best rounds of the day, and Jimmy Grant, an amateur playing his home course, was shooting a 67 to produce the four-way tie for second.

This was the second victory in two months for Venturi. Last month he won the U.S. open in a great comeback. Prior to that his last victory had been in the 1960 Milwaukee open. He said after the U.S. open that he had considered dropping the game, but had been encouraged by a priest to continue.

Braves Take Two From N.Y. Mets

NEW YORK, July 27 (AP)—Milwaukee's Warren Spahn, consistently ineffective as a starter, came on in relief Sunday, preserving an 18-10 second-game victory in a doubleheader sweep of the New York Mets behind the hitting of rookie Alton Carley and veteran Hank Aaron.

The Braves won the opener 11-7, although the Mets shelled the 49-year-old Spahn from the mound after 2-3 innings.

Bank Opens Campaign to Raise Money

HEATON, July 27 (U) — A local bank opened a statewide campaign to raise \$20,000 for plucky Johnny Danko.

The 16-year-old Ole-Elim boy is still partially paralyzed from injuries he suffered when a car hit him Feb. 7.

Johnny, who spent six weeks hooked to a kidney machine and now bears a steel pin from hip to knee, is running up a monthly hospital bill of \$1,200.

In addition to receiving multiple fractures of the arms, legs, ankle and pelvis, the farm-boy is feared to have suffered damage to the motor nerves at the base of his brain.

"I love you," Johnny told his nurses recently at Good Samaritan hospital. "But I'd pay you each 10 cents a mile to take me home."

Whispered Jokes in Eastern Europe Jab at Communist Root of Troubles

BY RAY CROMLEY
WASHINGTON, July 27 (NEA) — Whispered jokes in Eastern Europe jab unmercifully at the communist root of local troubles. Especially hard-hitting are the East German stories.

President Johnson, Lord Home and Khrushchev are driving to a summit conference when they see the devil hot on their trail. To placate him, Johnson throws out five \$100 notes. The devil picks them up, counts the notes, throws them away and hurries after the car.

At last Khrushchev takes an old envelope from his pocket, scribbles something on it and throws it from the car. The devil picks it up, reads it, blanches, swings around and tears off in the opposite direction.

"However did you do it, Nikita?" the Westerners ask. "Simple," Khrushchev replies. "I just wrote 'In two minutes we shall be entering the territory of the German Democratic Republic (Communist East Germany).'"

When Ulbricht (East German

red boss) died he knocked at heaven's gate.

"What are you doing here?" St. Peter asked. "You belong down below."

A few days later three devils knocked and told St. Peter: "We are the first refugees."

Party membership isn't popular in Poland. In Warsaw it's whispered that a communist party member who recruits a candidate for the party will have the right to tell political jokes. If he can rope in two candidates, he may resign from the party. Anyone who recruits three candidates will receive a certificate saying he has never been a party member.

The collectives are hated perhaps more than anything else the reds have tried. In Hungary they say that in a certain red-bone country the council of ministers met to discuss current business. The minister of agriculture was depressed. Harvest prospects were poor. Tractors and broilers were down. Manpower was scarce on the collective farms.

In short, there was no end to the difficulties.

A colleague tried to encourage him. "Cheer up. All these things are temporary. There's no doubt communism will triumph in the end and spread worldwide."

The minister hung up his hands and whispered: "Heaven's sake, man, don't say things like that. Where we import our grain from?"

Many people in Eastern Europe are especially bitter about the emphasis of Soviet and production in space and while consumer needs so teary.

A friend called to see the devil, astronaut, Colonel Popovitch. His daughter, Natalya, opened the door.

"Is your father in?"

"No," Comrade. "He's flying around the earth and won't be back until I see him."

"Can I see your mother then?"

"No, comrade. She was early this morning to buy some meat and won't be back until tonight."
